TEAMWORK MAKES THE DREAM WORK WITH THESE TOP TIPS!

LEVEL UP!

FORTNITE TEAM SKILLS

TALK & LISTEN!

★ Let people know what's going on as soon as you can! Try to make sure you're listening too, so everyone knows what's happening, from enemies approaching, to sharing an epic loot haul.

STICK TOGETHER!

★ If the team is together in one place, it'll be harder for enemy players to eliminate all its members. There's strength in numbers, so use that to your advantage!

BE FRIENDLY!

★ You're all there to have fun! If you find yourself getting frustrated at your team, take a break and think about how you can help the team improve when you play again.

WAYS TO WIN!

Not getting the W? Why not try...

SHARING IS CARING!

If only one person has all the items and gets knocked out, they're no good to anyone! But, if you share out the good loot so that everyone is a bit more powerful, you're more likely to get that Victory Royale!

Plus if you divvy up the weapons according to players' strengths, you'll have the slickest squad on the Island!

Smash your fave games all s

FORTNITE

Take the forts out of Fortnite!

ROOFTOP READY!

● A defensive strategy is harder without forts so if attacking isn't for you, just head to the rooftops. This will let you see enemies coming and make it harder for foes to reach you. Just remember to close doors behind you, and make sure you know where all the exits are in case you need a speedy getaway!

ZERO BUILD!

● If you're brave enough to tackle Zero Build mode, you'll need to make sure your offensive skills are spot on – there are no forts to save you now! Take time to practise your sniping, learn which weapons you like best, and remember to always aim ahead of a moving target so they run straight into the shot.

Splatoon 2

EXIT STRATEGY!

● Splatting enemies is more difficult the further away they are, so try covering the area around them instead. They'll have nowhere to go, making them an easy target – SPLAT!

Refresh your skills and get ready to boss Splatoon 3 on Sept 9!

CRAZY KARTS!

Start your engines and get ready to win!

● It's tempting to pick a kart combo that looks cool, but if you want to improve your time, it's worth experimenting with different set-ups. Each selection has its own stats, so finding the right mix can be the difference winning and losing!

POKÉMON LEGENDS ARCEUS

Fill your team with the rarest 'Mon around!

PERFECT POKÉDEX!

● Although you don't need to achieve perfect Pokédex entries to run into shiny 'Mon, it does help! If there's a specific shiny Pokémon you're hoping to catch, having a perfect 'Dex entry will increase the odds of a shiny version spawning.

OUTBREAK OPPORTUNITY!

● Mass Outbreaks and Massive Mass Outbreaks are the best places to scope out shinies, so be sure to pay attention to the guards at Jubilife Village when they warn you of an Outbreak.

FIFA 22

Take on the opposition head-first!

HEADER HERO!

● For headers you don't just need a taller striker or midfielder to take the shot, but a great corner taker is a must, too. With the right players in place, hold down LT/L2 and tap shoot when challenging for the ball to take your shot head-on!

NINTENDO SWITCH Sports

Be a sporty superstar on the Switch!

SOCCER SAVVY!

● You'll often see players chasing after the ball when you're playing football, but try not to rush in. The ball moves so quickly it's tricky to catch up, so hang back, look out for gaps and let the ball come to you.

CHAMBARA COOL!

● Don't panic – the key to sword fighting success is to stay calm, even when you're losing! Randomly swinging makes it harder to block but if you slow things down and study your opponents' moves, you can time your counter perfectly.

AMONG US

Don't be SUS!

BLAME GAME!

● If another Crewmate wrongly accuses someone of being the Imposter, keep an eye on them! Maybe it was an innocent mistake, but if you catch them acting weirdly later in the game, chances are you've found your baddie!

NO REVENGE!

● Getting sussed when you're the Imposter is rough, but if you survive the meeting, DON'T target that player - you'll look guilty! If a Crewmate accuses someone else, then taking out the accuser might get an innocent player ejected!

Be the best BEAN on the scene!

DON'T DASH!

● It's really tempting to rush ahead of the pack when playing Door Dash, but be patient! Let a few other players overtake you so you can see exactly what doors to go for without risking elimination.

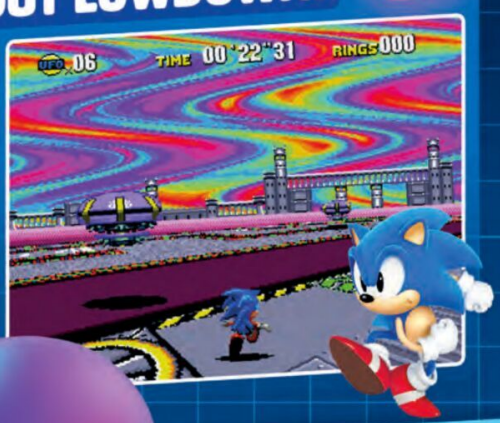

LONG-A-GONE!

● It's a risky strategy but instead of sticking to the top level with all the other finalists in Hex-a-Gone, try jumping straight down to one of the lower levels. You'll likely have the whole floor to yourself while everyone else scrambles up above!

SONIC ORIGINS

LAYOUT LOWDOWN!

Go retro with the Blue Blur!

● Like most platformers, learning the levels is key! Take time to explore, finding the best routes and any hidden goodies. When you replay the level or go for an achievement, you'll know exactly where to go and what to do.

SMASH THE SUMMER

MINECRAFT DUNGEONS

Can you totally master the Tower?

TOP TOWER!

● The key to tackling any version of the Tower is simple – keep trying! Don't expect to master everything in one go. It'll take a few attempts to suss out where everything is and the best way to take on each boss, so try taking note of what you struggled with each time, and you'll get better as you go.

LEGO BRAWLS

GENRE: FIGHTING SYSTEM: NINTENDO SWITCH, XBOX SERIES X/S, XB1, PS4, PS5, PC

Think Smash Bros... but make it LEGO. If you think that sounds awesome, then you'll love LEGO Brawls! Instead of playing as familiar characters, you'll create your own epic brawler – whether that's a ninja who uses baguettes as weapons or a sledgehammer-wielding clown, you can let your imagination run wild!

LEGO Brawls is wonderfully wacky, but the aim of the game is simple. You'll battle your way through iconic LEGO-inspired levels like Barracuda Bay, and the Monkie Kid jungle. Better yet, you can level up your brawler along the way with unlockable content.

If you think you're tough enough, you can climb the global leader board and track your rank against other players from all over the world. If you don't have the same console as your friends, that doesn't matter. LEGO Brawls supports cross-platform play which is another thing we love about this game!

LEGO Brawls was first released as an Apple Arcade exclusive in 2019, meaning you'll have some idea of what to expect if you've ever played that before. While this isn't a totally new concept for a game, the graphics look incredible and it's so much fun to play on consoles and PC.

Whether you're a LEGO fan or not, any kind of gamer will enjoy this silly and fast-paced game. It does feel a little chaotic at times, but that's all part of the fun!

KLONOA PHANTASY REVERIE SERIES

Bandai Namco's fuzzy animal hero Klonoa is finally coming back! Plus, they're going to be on more consoles than ever before in Klonoa Phantasy Reverie Series, a remaster collection that bundles together the Klonoa: Door to Phantomile remake and Klonoa 2: Lunatea's Veil to celebrate the series' 25th Anniversary!

Both releases are 2.5D adventures which combine Sonic-style animation with platforming gameplay that Nintendo fans will enjoy! Klonoa games aren't difficult, but they are fun thanks to great controls and interesting moment-to-moment action.

We wish that the Game Boy Advance game Klonoa: Empire of Dreams and the PlayStation game Klonoa Beach Volleyball were thrown in as extras, but maybe those popular spin-off games will get cool new versions of their own!

Klonoa has always been a bit of a hidden gem, and we expect a brand-new group of fans to fall in love with the games thanks to this release!

GENRE: PUZZLE PLATFORMER SYSTEMS: NINTENDO SWITCH, XB1, PS4, PC, STADIA

LUMOTE: THE MASTERMOTE CHRONICLES

Lumote: The Mastermote Chronicles is a puzzle platformer where you control Lumote, a glowing creature that solves puzzles to open flower gates and progress on a journey through a dreamlike setting that feels a bit like the bottom of the ocean.

As you make your way further down in the world of the game, each tower you visit introduces a new twist on the puzzles you've seen before. This means they get longer and more complicated, which would be fine… but the game is a bit stingy with checkpoints. So, if you accidentally get crushed or fall off a platform, you'll have to start the puzzle over, which can be frustrating!

The puzzles are well-designed, and it feels like a really good way to chill out and test your wits, with lots of 'a-ha!' moments throughout the adventure for patient players. The Lumote character itself is really cute, and the electronica soundtrack is cool and interesting. Lumote: The Mastermote Chronicles is not going to be for everyone, but if it clicks with you, then you'll have loads of fun!

DC LEAGUE OF SUPER-PETS: THE ADVENTURES OF KRYPTO AND ACE

It's time for the pups to suit up! Super-dogs Krypto and Ace aren't about to roll over when Lex Luthor threatens to pet-nap the strays of the city! Soar through the skies and protect the streets of Metropolis in this pet rescue adventure inspired by the film!

Choose your hero and defeat the evil threat using Krypto's powers of Heat Vision and Arctic Bark and Ace's Batarangs and Shoulder Charge attacks in this action-packed game. You'll be able to rescue animals that you can then pamper and rehome at the Pet Adoption Centre and earn some special rewards too!

This fast-paced game will have you using your abilities and dodging obstacles as you battle the evil LexBots, collecting powerups to upgrade your powers along the way. We reckon arcade fans with fast fingers will really get a kick out of this one!

MY TIME AT SANDROCK

My Time At Sandrock is set in a post-apocalyptic world 300 years after the Day of Calamity destroyed most modern technologies. As Sandrock's newest builder, you'll restore the community back to its former glory.

As well as building, you'll explore and grow crops which is super-relaxing! This helps make a difference to the lives of the people who live there which is rewarding to see. Expect some action too as you protect Sandrock from monsters.

The game is a prequel to My Time At Portia, but don't sweat it if you've never played that before. It's easy to pick up, and the tutorial explains everything in a fun and easy way.

We would have loved to see a multiplayer mode! The game is in early access, but multiplayer is rumoured to appear in an update by the end of the year.

DISNEY DREAMLIGHT VALLEY

Step into your favourite Disney and Pixar worlds in the upcoming Disney Dreamlight Valley!

In-game, Dreamlight Valley is filled with familiar Disney and Pixar characters, all of whom have amnesia because of a mysterious event called The Forgetting… which might explain why our favourite heroes and villains are happy to be neighbours! The aim of the game is to help the Valley's residents to recover their memories, solving mysteries and building relationships along the way.

If you like to put your own stamp on your games, you'll like this! Not only can you customise your own avatar, but (drumroll for the Animal Crossing fans!), your own house too! This kind of means we can live in Disneyland… right?!

Aside from the main quest, this free-to-play game will have plenty of fun things to do such as cooking, fishing, and gardening. There will be loot to collect to customise your avatar and house too! There will be lots to do in the different areas of the valley, including rebuilding the Plaza, finding resources in the Glade of Trust, fishing on Dazzle Beach, and much more!

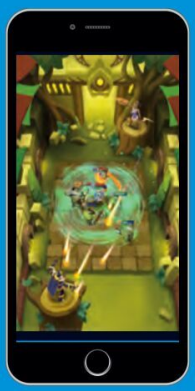

This game is Stardew Valley meets The Sims meets Animal Crossing meets every Disney film ever, and we can't wait to get started on our quest!

■ OMG! Chilling with my buds and we just watched the BEST MOVIE! All about this hedgehog who speeds around defeating bad guys... Hey, wait a minute! That sounds like my life! The cheek!

1PM

■ Uh-oh, Eggman has stolen the Chaos Emeralds... AGAIN! Ugh, give me a break. Gotta act fast before it's too late, does this Egghead ever take a day off?

4PM

■ Phew, that was close, but Eggman's finally cracked! He sent his robots to distract me as he tried to run off. He never learns, they're no match against my super-speedy car!

9PM

■ Yawwwn, almost bedtime. I bet a few laps around the block will help me unwind for the night...

FORTNITE CROSSOV

GOTHAM CITY

In Chapter 1 Season X, reality was unstable and places on the Island changed every week! Players logged in one day and found that Tilted Towers had been replaced with Gotham City! But the crossover didn't stop there, they even released a series of comic books detailing what happened when Gotham got sucked into a Fortnite rift!

FORTNITE HAS HAD A LOT OF GUEST STARS! HERE ARE SOME OF THE COOLEST AND CRAZIEST!

MAKE MINE MARVEL

■ Marvel characters also made their way to the Island, and there was a whole season dedicated to the Avengers. Several of Earth's Mightiest Heroes are playable in Fortnite, including Doctor Strange, Iron Man, Captain America, Spider-Man, Black Widow and even Groot!

ARIANA GRANDE

■ Ariana Grande has come to Fortnite: Battle Royale more than once, but we didn't expect Epic Games to reveal that she was helping the evil aliens from The Last Reality steal the Zero Point!

IN A GALAXY FAR FAR AWAY

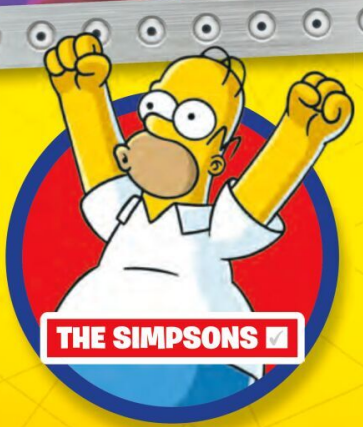

■ Our fave intergalactic heroes have popped up in Fortnite a few times, but when The Rise of Skywalker movie was released, gamers got to hear the voice of Emperor Palpatine during a live event! This broadcast is mentioned in the opening of the film too... which could mean that Fortnite and Star Wars are set in the same universe?! What do you think?

BATTLE YOUR WAY TO VICTORY WITH THESE TOP T

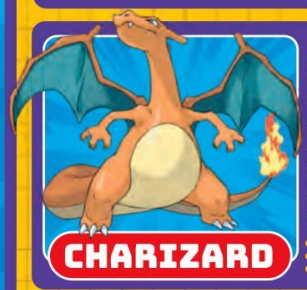

THE ULTIMATE POKÉMON PRO TRAINER BATTLE GUID

GARCHOMP

This Dragon/Ground type is epic in battle with its speed, high Attack stat and varied moves! Its Rough Skin ability causes damage to foes on contact. Just be careful around Fairy, Ice, and other Dragon types!

CHARIZARD

Pokémon that pack fire power like Charizard always come in handy during battles! It can burn its way through all kinds of foes but is snuffed by Rock, Water, and Electric aggressors!

ALAKAZAM

Fighting types are no match against Alakazam's psychic powers! Its incredible speed lets you strike first causing huge amounts of damage with its Special Attack. But keep away from Ghost, Bug, and Dark types!

GYARADOS

This fearsome Pokémon is a powerhouse in battle! The Hyper Beam it shoots from its mouth totally wipes out all targets. Rock and Electric type 'Mon have the strength to take Gyarados down!

GENGAR

Gengar is the ultimate Ghost/Poison type! This spooky warrior stops enemies from fleeing with its Shadow Tag ability. Grass, Bug, and Fairy types don't stand a chance but watch out for Psychic, Dark, Ground, and other ghostly opponents!

TOP TIP

Choose the types of moves your Pokémon can learn carefully to cover your weaknesses. Having a Garchomp that knows Crunch will give you a better chance of winning against a Fairy type!

SNORLAX

You're gonna want Snorlax with its powerful moves like Giga Impact! This 'Mon has a high HP and a huge Special Defence stat. Ghost enemies won't leave a scratch but remember, Snorlax is weak against Fighting types!

Kirby DOs

and the Forgotten Land

HOW TO BE A KIRBY LEGEND!

DO SEARCH FOR SECRETS!

The game is full of secrets, many of which will reward you with an extra collectible Waddle Dee for your village! Be sure to explore, copy and interact with anything that looks weird or interesting to get the most out of the game.

DO HEAD HOME!

Once you've advanced enough to build a house in Waddle Dee Town, you can head there to rest up and replenish your health bar whenever you need to – total lifesaver!

DO FIGHT IN THE COLOSSEUM!

If you can beat Meta Knight in the Colosseum, you'll unlock an incredible upgrade for your Sword power. It's very strong, so do it as soon as you can to help you power up!

AND DON'Ts!

DO TRY CO-OP!

You can play almost the entire game in co-op with a friend playing as the **Bandana Waddle Dee**! Get a friend or family member to sit down and enjoy the adventure with you!

DO TRY AND BEAT THE TIMERS!

Some levels have sections where you'll be timed and there'll be a scoreboard at the end. Try and beat the top times on those scoreboards for cool rewards!

DON'T RUSH THROUGH THE LEVELS!

Take your time! Soak up the atmosphere and enjoy the awesome artwork! Be sure to take breaks between worlds too. You'll be more likely to finish the game if you don't burn yourself out by rushing through it!

DON'T RAGE QUIT!

Some of the bosses can be really tricky (especially on Wild Mode) but keep a cool head and experiment with different strategies until you beat the biggest foes. Rage quitting might be tempting when you're stuck, but nah… you got this! We believe in you!

DON'T STICK TO ONE POWER SET!

Sure, that Hammer power is cool … but trying out all the different powers and their upgrades is part of the fun! Be sure to give them all a go at least once and practise until you get the hang of 'em!

There are so many things to do, and it just makes the world feel a lot more lived in!"
